Hi Conrado and Misty,

I hope this message reaches you both well. In following up from our conversation about a week ago:

- Tile Cost is: **\$10,227.00**

However, I am working with LADOT to determine whether or not we can co-mingle funds with this Federal contract. From the look of it, we may not be able to just "add 10K to this contract" thus we would need to work with your offices to draft a contract to conduct the work. I believe we could pull an A-permit, but I am waiting on word from DOT to confirm.

Thanks,
Alain J. Datcher
